Profile

I'm a student that likes to write code and design user-friendly applications, but I also want to further develop through other challenges/experiences. This upcoming spring I am writing my master thesis and is therefore searching for a company to write it at.

Work experience

Acino, Umeå

June 2023 - August 2023

Worked as a frontend developer at Acino in Umeå. I, together with another person, designed and developed a customizable homepage/dashboard for a digital product.

Vue

VS Code

Customer contact

Electosoft, Skellefteå

June 2022 - August 2022

Worked as a frontend developer at Elecosoft in Skellefteå. I helped them in the process of rewriting one of their products from Angular JS to Angular 12.

Angular
